## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. **Claims 1-23 and 27**, drawn to a plurality of overlapping color sensor arrays configured to form a high-resolution image, classified in class 348, subclass 273.
- II. **Claims 24-26**, drawn to an image projection method that splits a received image into a plurality of spectral bands, downsamples each spectral band, and displays the downsampled image, classified in class 359, subclass 196.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions distinctly claim methods of high-resolution image capture using overlapping color sensor arrays (Invention I) and a method of image projection of a captured image by splitting the image into a plurality of spectral bands and displaying a downsampled image with a spatial offset of each spectral band (Invention II).

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification and search, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement, to be complete, must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Art Unit: 2622

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment to inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
